***Allowable Subject Matter***

Claims 1-7, 10-19 and 21-23 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art teaches the use of systems that provide images to remote sites by sensing an image using an image sensor and transmitting a sensed image to the remote sites. Furthermore, the prior art teaches the use of systems that enable the remote sites to make selections of sub-images of the transmitted image and then transmitting this request to the camera. Furthermore, the prior art teaches the method of allowing the camera to then generate the corresponding sub-images and then transmitting these sub-images to the corresponding remote sites. However, the prior art does not teach or fairly suggest a system in which the transmitted sensed image always includes the entire sensible range of the image sensor. Therefore, the claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
